

Sourcing great Chinese tea from thousands of miles away isn't easy, so our offer is simple – we're your on-the-ground Chinese tea sourcing consultant.

Who are we?

We're one of the few EU/US tea companies actually based in China. We source direct from farms near our home, and can offer you unbeatable quality, price and reliability.

We were established in 2010, and have since sold Chinese teas in over 20 countries around the world. Our aim is to bring an open, honest and no-nonsense approach to tea.

Our Chinese teas

We offer a range of mid-to-high end Chinese teas, including green, red, oolong, scented and white teas. For details of the standard teas we supply, please get in touch and ask for our latest product list.

We also work with factories able to produce custom teas specifically for you. You might have special price or quality requirements, or desire a particular taste. Whatever that is, contact us to get started.

The easy part - our details are at the bottom of this page. We speak English, German, French and Chinese.

1. Contact Us

Get in touch and discuss your needs

2. Samples and quotes

We provide you with prices and samples

We're happy to provide you with samples. Typically we provide samples above and below your target price too.

All of our teas come direct from approved, professional and export-licensed farms. We perform independent chemical tests for you through internationally recognised testing centres.

3. Sourcing and testing

We find your tea, check and test, and package it for delivery.

4. Payment and delivery

You pay, we arrange delivery.

No minimum orders, and we take care of the international shipping and delivery for you - door-to-door.

5. After sales service

Questions? Problems - get in touch.

Teaware

We help you source not just tea, but the modern or traditional teaware you need to serve it. Our location close to manufacturers ensures your range of teaware will be excellent quality and value for money.

Service and training

Your customers expect good service and information about the products they buy, and so do you. We're proud to provide a personal after-sales service, and extensive information about teas we supply. If you require training for you or your staff, please let us know.

Shipping and customs

We remove the hassle of international shipping and customs paperwork for you, arranging door-to-door delivery of your tea and teaware. Safe, fast and reliable.

Safe, clean and EU/US compliant

As standard, we help arrange independent testing of your teas to ensure they are free from chemicals and EU/US standards compliant. We also conduct our own year-on-year taste and quality tests, ensuring each batch matches your requirements exactly.

Contact Us

The best way to find out more is to get in touch with us directly. We're happy to answer any questions you have, provide quotations and samples, or just discuss your business in general:
